**From Oxford University Press :** Appeals Mechanism in International Investment Disputes before purchasing it in order to gage whether or not it would be worth my time, and all praised Appeals Mechanism in International Investment Disputes:

This volume brings together significant contributions from leading voices in academia, the legal profession and government on the increasingly important topic of international investment and the legal system in which it operates. With the burgeoning size of international capital flows matched only by an explosion in international agreements

intending to regulate the field, there is increasing potential for incoherence amongst and between treaties and arbitral decisions. Appeals Mechanism in International Investment Disputes compiles, compares and contrasts the analysis and arguments of the leading scholars, practitioners and government officials on the future of the international investment law regime. Its special emphasis is on the question of an appellate body for international investment disputes. The authors also seek ways to streamline and improve the system, channeling the benefits of free trade and investment flows to people in both the developing and emerging markets. The Appendices provide readers with extensive background material to place the chapters into context. Selected sections include concise commentaries to further illuminate the timely themes covered by the chapters. The volume is singular in its success at bringing together so many exceptional individuals on a question of growing import-how to improve the international law regime to increase prosperity and further global development. If a reader wants to know what the influential voices in international law are saying right now, and in a concise and readable format, this is the publication to have.

"Karl P. Sauvant unites the leading voices in academia, law, and government in a discussion on international investment." -Columbia Law School Magazine  
About the Author  
Karl P. Sauvant is Resident Senior Fellow and Founding Executive Director of the Vale Columbia Center on Sustainable International Investment, Senior Research Scholar and Lecturer in Law at Columbia Law School, and Guest Professor at Nankai University, China. Before that, he was Director of UNCTAD's Investment Division. He is the author of *The Effect of Treaties on Foreign Direct Investment* (Oxford University Press, 2009 with Lisa Sachs).
