From Asian Development Bank : Asian Development Bank Sustainability Report 2009 (ADB Sustainability Reports) before purchasing it in order to gage whether or not it would be worth my time, and all praised Asian Development Bank Sustainability Report 2009 (ADB Sustainability Reports):

The second Sustainability Report of the Asian Development Bank (ADB) offers easily accessible information on ADB's policies, programs, and practices as they relate to the social and environmental sustainability of development in Asia and the Pacific, and on changes in this work that have occurred since ADB published its first Sustainability Report, in 2007. The report also documents ADB's continuing efforts to minimize its corporate environmental impact, especially at its Manila headquarters. For comparability, ADB's current Sustainability Report is structured similarly to its first. Both reports respond to the latest guidelines of the Global Reporting Initiative

while adapting to the particular characteristics of ADB's work and the many different audiences interested in the information presented.
