By Jayne I have purchased and read quite a few books about making money online, building a successful Internet business or getting rich by selling information; this book is on the top of my list for recommendation. It is not everyday that you can find a book with that much value; therefore, the first thing I want to do is to thank Scott Fox for creating a book that is filled with so much useful and helpful information. Are you ready for a follow-up Scott? We are hungry for more. There are so many books about how one can be rich by selling

information that you could fill an entire library with nothing else. The problem with most of these books is, that they are either incomplete and you would need to read a chapter or two from each in order to get a more comprehensive picture; or they are loaded with fluff, gobbledegook and self promotion in which case I would not waste my time beyond the first page. This book is not only organized and written well, but covers a wide variety of prospects for prosperity with step-by-step details about the "how-to" part. I keep re-reading sections concurrently with the progress of my new blog. Actually I am using it as my top reference source. I love how the book equates the creation of a successful business with that of a lifestyle enhancement. Mr. Fox introduces us to the principal theme of the book almost immediately as we start to read: "work less, live more." I would say as you continue to read the book you will not only live more but live better. This book is also a great motivator. When I feel down and thinking that I am chasing an unachievable dream, I go back to read randomly selected sections in the book (particularly parts one and seven) and I am ready to conquer the world. You will also learn fairly fast how to develop a business that will support a gratifying lifestyle - he calls it the "click millionaire's lifestyle." He makes the "10-step click millionaire expert program" so easy to follow that a first grader could succeed in becoming the member of the click millionaires. I am really excited about my future if I will make sure to follow Scott's guidelines that are described abundant details for anyone follow with ease. People purchase things from people they trust. What other method is the best to gain someone's trust then demonstrating their extensive knowledge and expertise in the topic through a published book. I believe I would even purchase a used car from Scott. I highly recommend this book to anyone interested to build a successful online business along with a contenting life style. I have only praise for Scott Fox. I guarantee you'll feel the same following reading the book. 2 of 2 people found the following review helpful. Highly Recommend! By Mary Allen Im glad I read this book before I started an online store! I thought that an online store was what I needed to do to make money online, but after reading Click Millionaires, I know now that there are a whole lot more opportunities than an online store to make money on the internet. This book is full of ideas, resources and advice written in a friendly, personable way. I recommend reading Click Millionaires to learn what it means to find a niche on the internet! The clear explanations on blogging, utube, podcasts, nooles, and network marketing to name a few were very useful. After reading this book I am inspired to search my soul and research the internet for my niche! Highly recommend! 7 of 7 people found the following review helpful. Spectacular By Jon W. Christophersen "Click Millionaires" is Scott Fox's third book on internet e-commerce. I thought the first two were great. He has gone way over the top with the third tome. All three are easy to read, fun and inspirational. These books by Mr. Fox are the quintessential "How-To..." books. He is not trying to sell you any "get-rich-quick" scheme. In fact he is giving away millions of dollars of knowledge, know-how and insights for free. He has FREE web sites and blogs to help you with whatever question you may have. Let me quote from the inside jacket cover which says everything better than I can. "...[this] internet e-commerce expert teaches you the revolutionary business design principles you can use to launch an on-line business with little or no startup capital or technical expertise and trade the 9-5 job you hate for an internet business you love." Get this book, enjoy the contents, and build a profitable life style.

The rules have changed. The American Dream is no longer the corner office. It's a successful business you can run from your home office, the beach, or wherever you desire. It's work you love that still allows you the freedom and income to live the life you truly want. Sound like a tall order? Well, thanks to the Internet, anyone can launch a business with little or no start-up capital or technical expertise. And in Click Millionaires, e-commerce expert Scott Fox teaches weary corporate warriors and aspiring entrepreneurs how to trade the 9-5 job they hate for an online business they love. The book explains how to combine outsourcing, software, and automated online marketing to build recurring revenues, all while working less and making fewer of the lifestyle compromises that corporate success requires. Readers will learn how to: Find a lucrative niche on the Internet that matches their interests and skills Choose an online business model: from blogs, noozles, and audience communities to digital delivery, online services, affiliate marketing-even physical products Position themselves as a experts Build their audience Design the lifestyle they want Balance passion and profits to realize their personal definition of success Featuring stories of dozens of regular folks who have reinvented themselves as Click Millionaires, this inspiring and practical guide shows readers how to stop dreaming of a better life and start living it!
