**Sandra Marco Colino : Competition Law of the EU and UK** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Competition Law of the EU and UK:

Competition Law of the EU and UK 7e builds on the strengths of Mark Furse's original textbook to provide an engaging and approachable introduction to competition law. It offers up-to-date and comprehensive coverage of the most recent cases and legislative changes. Taking a comparative look at the links and differences between EU and UK law, fundamental economic concepts which underpin the subject are also clearly explained. The changes introduced by the Treaty of Lisbon and the implications of the recent economic crisis are highlighted throughout the book. This

edition contains new features, including a chapter on state aid, a revised focus on procedural aspects (including an analysis of the White Paper on Damages and the first criminal conviction for breach of competition law in the UK), an in-depth look at the review of Article 102 TFEU, a study of the new UK Merger Guidelines, and an account of the key changes of the new EU block exemption for vertical agreements. The inclusion of detailed case summaries, enhanced flow charts, and other useful visual aids contribute towards providing a stimulating approach to competition law, making it an ideal introduction to the subject for undergraduates and postgraduates new to this area of the law. Online Resource Centre This book is accompanied by an Online Resource Centre, which provides regular updates to the law, along with web links, a table of OFT decisions, and student MCQs.

from previous edition: "It should be emphasised that Competition Law of the EC and UK achieves a level of depth and comprehensiveness that goes far beyond what can normally be expected from a students' textbook. Its well-arranged tables of contents, tables of cases and decisions, as well as its comprehensive index, render this book very handy and reader friendly. It therefore also serves as a quick and reliable reference guide for competition law veterans and practitioners, to whom I can strongly recommend this book." --E.C.L.R - Issue 1, 2009 Dr Volker Soyez, Partner, Lorenz
