In these pages, you will find successful people sharing their secrets. Not every quote will blow you away though. Some are common sense, while others are slightly contradictory. But overall, everyone is bound to find something valuable within these pages.For anybody starting a business venture, you know how easy it is to get distracted and drawn off course. Some people call this 'Mission Drift'. I find that a book like this will help you stay focused over the long-term. I have even torn some quotes out and put them on my wall as reminders. Buy this book ndash; the advice you will find is priceless.1 of 1 people found the following review helpful. The design is nice though.By Mohammad Ziyad ShaquraI do not see this as a real book. It is really hard to get inspired by reading some quotes! The design is nice though.0 of 0 people found the following review helpful.
