Luke Bencie : Global Security Consulting: How to Build a Thriving International Practice before purchasing it in order to gauge whether or not it would be worth my time, and all praised Global Security Consulting: How to Build a Thriving International Practice:

0 of 0 people found the following review helpful. This book good business sense instruction manual that provides a good reference ...By David Hart This book good business sense instruction manual that provides a good reference for starting in a field that is often vague in regard to products provided. The security consulting industry is a personality

based endeavor and this instruction provides some good basic business instruction to leverage KSA's into a money making venture.0 of 0 people found the following review helpful. Four StarsBy CustomerVery informative for someone transitioning from law enforcement who is unfamiliar with starting and running their own business.0 of 0 people found the following review helpful. Five StarsBy Damian IzquierdoGreat book for those who want to start a Security Consulting business.

With new security threats nearly every week all over the globe, governments and businesses are forced to take extraordinary measures to protect themselves. Likewise, espionage continues at levels comparable to the days of the Cold War—but many more players are now participating. In this environment, a new industry has grown to deal with these challenges: international security consulting. Drawing from military, law-enforcement, and intelligence communities, new private companies are springing up across the world. *Global Security Consulting*, written by a former intelligence specialist who has built a successful consultancy, provides solid guidance for anyone wishing to enter this glamorous but often dangerous field.

ldquo;[*Global Security Consulting*] is not only a must-read for operating your own business but a testimonial to managing any business with integrity and fairness.rdqquo; mdash;William J. Esposito, former Deputy Director, FBI
