**From Palgrave Macmillan : Globalisation, Democratisation and Radicalisation in the Arab World** before purchasing it in order to gage whether or not it would be worth my time, and all praised Globalisation, Democratisation and Radicalisation in the Arab World:

This book provides a fascinating analysis of the external and internal linkages that have for decades impeded economic and political reforms in the Arab world, and presents a new and coherent framework that enables policy makers and practitioners to better understand, identify and deal with the root causes of terrorism.
