**Pardeep Medury, Uma Sahni : GOVERNANCE FOR DEVELOPMENT: ISSUES AND STRATEGIES** before purchasing it in order to gage whether or not it would be worth my time, and all praised GOVERNANCE FOR DEVELOPMENT: ISSUES AND STRATEGIES:

This well-presented collection focuses on the need for Governance for Sustainable Human Development to manage a country's social as well as economic resources leading to better development; founded on four pillars of Accountability, Transparency, Predictability, and Participation. It thus calls for unfolding various issues and devising suitable strategies towards humane governance through appropriate political, bureaucratic, economic, and legal reforms. The book will be of immense use to the students and teachers of public administration, social science, political science, and those who practise public administration. It will also be useful to a large number of government departments-both at the union and the state levels.
