**Steven Holzner : Small Business Web Sites Made Easy (Made Easy Series)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Small Business Web Sites Made Easy (Made Easy Series):

2 of 2 people found the following review helpful. Very good web building book By Michael Solow Mr. Holzner really knows a lot about web building and what is need to place successfully in search engines. I found this book very helpful as it guided me step-by-step in creating landing page and provided me with the kind of information that helped me become better marketer. 6 of 6 people found the following review helpful. Good introduction to many aspects of web site building By C. J. Cuoco "Small Business Web Sites Made Easy" is an excellent introduction to the process of building a good web site. I like that it provides the actual code most of the time. This is rare in these kinds of books. If you are new to web site construction, and want to learn the basic of HTML, CSS, etc. this book is a good place to start.

Bring in more customers with your own web site! Take your business online and start generating additional revenue with help from this highly visual, easy-to-follow guide. Small Business Web Sites Made Easy shows you how to use HTML, CSS, JavaScript, PHP, and other tools to create a compelling site that's functional, flexible, secure, and ready for commercial transactions. The book also covers the fundamentals of web-based marketing, including search engine optimization and pay-per-click advertising. Now you can establish a solid online presence without the expense of hiring a designer! Learn essential HTML skills
