From Springer : Smart Technologies for Smart Nations: Perspectives from the Asia-Pacific Region (Managing the Asian Century) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Smart Technologies for Smart Nations: Perspectives from the Asia-Pacific Region (Managing the Asian Century):

This book emphasizes the need for new directions and approaches for social and economic development in the emerging nations of the Asia-Pacific region through the use of Smart Technologies. It takes a holistic view of socio-economic and technical developments taking place through ASEAN and South Asia. Compared to practices in the 20th century, the use of Smart Technologies is likely to have a faster and greater impact on emerging nations (Smart Nations). Smart Technologies for Smart Nations: Perspectives from the Asia-Pacific Region is core reading for academics, professionals, and policymakers interested in technological developments in ASEAN and South Asia.

From the Back Cover This book emphasizes the need for new directions and approaches for social and economic development in the emerging nations of the Asia-Pacific region through the use of Smart Technologies. It takes a holistic view of socio-economic and technical developments taking place through ASEAN and South Asia. Compared to practices in the 20th century, the use of Smart Technologies is likely to have a faster and greater impact on emerging nations (Smart Nations). Smart Technologies for Smart Nations: Perspectives from the Asia-Pacific Region is core reading for academics, professionals, and policymakers interested in technological developments in ASEAN and South Asia.
