In that time I've been through many peaks and troughs and have read possibly hundreds of books relating to business. I recently came across this book and have to say that it stands head and shoulders above the rest. The author, Rasheed Ogunlaru asks us, "If your heart is not in your business, then why are you?" What a question! That's just one of the gems that set my heart ablaze. The book is also beautifully laid out and

each chapter lead me seamlessly to a place of clarity and rekindles the passion and love for myself, and my business, and has reminded me why I got into business in the first place. I highly recommend this book, and rate it with 5 stars. I've just ordered 5 more copies for xmas presents! Do yourself and your business a favor and buy this book, if not for yourself, then for someone you love!!!0 of 0 people found the following review helpful. Soul Trader - DON'T leave this gem on the shelf!!By David MilnesAs a business owner having previously read countless, 'how to be successful' books, I found Soul Trader to give an entirely new and fresh perspective on growing my business. Rasheed Ogunlaru spots a fundamental common denominator to business and personal success that consistently gets overlooked. Soul Trader gives practical tips and exercises to easily; re-calibrate, re-charge and re-invigorate both you and your business. And the best bit for me in these tough economic times is that virtually all the ideas don't cost anything. This easily read book has numerous anecdotes and case studies to illustrate what's clearly a proven approach. It's simple to read, simple to digest, and very simple to do. For me, simply a 'must buy'.0 of 0 people found the following review helpful.
