What Obama Means by 'Change'By Husker005Kurtz exposed Barack Hussein Obama, his friends, their ideological basis and their quest to transform America into a nation of quibblings dependent upon a ubiquitous Levianthan federal government. The Affordable Health Care architect Gruber

said it best when he admitted they packaged and sold a tax hike to an electorate too stupid to recognize what they were cheering for. Great expose as usual by Stanley Kurtz By JOHN KOESTER Great expose as usual by Stanley Kurtz. Like with Radical-in-Chief, leaves you with a lot to think about. Also gives you the chills when you really get to know who BO and. His pals are and what they are up to. Only problem is that it is so hard for most to believe that this kind of radical is now our President. What will it take for reality to truly sink in and will it be too late by that time Regardless, SK is indispensable in exposing exactly who these people are and what they intend for the country. And it ain't good. God help us. 0 of 0 people found the following review helpful. Copyright 2012-Well written scary revealing Obama mindset By LARRY When Barack Obama told "Joe the Plumber" that he wanted to "spread the wealth around", he wasn't just using a figure of speech. Kurtz, the author of this book reveals new evidence that Obama's administration's talk about helping the middle class is essentially a smoke screen. Behind the scenes, plans are under way for a serious push toward wealth redistribution, with the suburban middle class not the so-called 1 percent. Reading this book gives me chills and it is some scary stuff for I am in the middle class and I live in the suburbs for a reason...to avoid the crime, high taxes and other crap in the adjacent city...Get this book for yourself and you decide .

When Barack Obama told "Joe the Plumber" that he wanted to "spread the wealth around", he wasn't just using a figure of speech. Since the 2008 campaign, Stanley Kurtz has established himself as one of Barack Obama's most effective and well-informed critics. He was the first to expose the extent of Obama's ties to radicals such as Bill Ayers and ACORN. Now Kurtz reveals new evidence that the administration's talk about helping the middle class is essentially a smoke screen. Behind the scenes, plans are under way for a serious push toward wealth redistribution, with the suburban middle class—not the so-called one percent—bearing the brunt of it. Why haven't we heard more about policies that will lead to redistribution? In part, of course, because controversies over Obamacare, unemployment, and the exploding budget deficit have taken the media spotlight. But the main reason, according to Kurtz, is that Obama doesn't want to tip his hand about his second term. He knows that his plans will alienate the moderate swing voters who hold the key to his reelection. Drawing on previously overlooked sources, Kurtz cuts through that smoke screen to reveal what's really going on. Radicals from outside the administration—including key Obama allies from his early community organizing days—have been quietly influencing policy, in areas ranging from education to stimulus spending. Their goal: to increase the influence of America's cities over their suburban neighbors so that eventually suburban independence will vanish. In the eyes of Obama's former mentors—followers of leftist radical Saul Alinsky—suburbs are breeding grounds for bigotry and greed. The classic American dream of a suburban house and high quality, locally controlled schools strikes them as selfishness, a waste of resources that should be redirected to the urban poor. The regulatory groundwork laid so far is just a prelude to what's to come: substantial redistribution of tax dollars. Over time, cities would effectively swallow up their surrounding municipalities, with merged school districts and forced redistribution of public spending killing the appeal of the suburbs. The result would be a profound transformation of American society. Kurtz shows the unbroken line of continuity from Obama's community organizing roots to his presidency. And he reveals why his plan to undermine the suburbs means so much to him personally. Kurtz's revelations are sure to be hotly disputed. But they are essential to helping voters make an informed choice about whether to reward the president with a second term.
