**Dan Furman : Start Run a Real Home-Based Business (Start Run Business Series)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Start Run a Real Home-Based Business (Start Run Business Series):

3 of 3 people found the following review helpful. The problems of how to booksBy Peter WallaceI purchased this as a gift for someone who is starting an on-line business from home. The complexities of individual needs in terms of business mean that much of any guidebook is not of interest to the potential entrepreneur. The author speaks at length of his experience and success, which may be uplifting but is not helpful. Still, there are sections that were very helpful. Read through the contents carefully before you buy.0 of 0 people found the following review helpful. Five StarsBy

CustomerIt's a good read - I like the way he delivers the material2 of 2 people found the following review helpful.  
Starting a Home Business BookBy NancyI have made it through this book a little ways and have found some basic information. However, the clichéacute;'s, etc., do not really provide the actual "start-up" business information that I believe a serious business person needs. It is a good enough starting book, but I guess I was looking for a more true to life business start-up book. But if you are a "first time" home business person, I would recommend the book. Thanks!!

Whether you want to work at home on your computer, open a daycare, start a local service (like a plumber, computer consultant, pet sitter, etc), or anything else, then Start and Run a Real Home Based Business is what you've been waiting for.

About the AuthorEntrepreneur Dan Furman runs a successful writing and marketing consulting company out of his home. For the past 20 years he has run several home businesses, and has helped countless others with marketing and running their own. Dan knows firsthand what ma
