Eileen Figure Sandlin : Start Your Own College Planning Consultant Business: Your Step-By-Step Guide to Success (StartUp Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Start Your Own College Planning Consultant Business: Your Step-By-Step Guide to Success (StartUp Series):

1 of 1 people found the following review helpful. I had higher expectations for this book. If you ...By Chris GallagherI had higher expectations for this book. If you are searching for a book that will give you specialized information and insight into college consulting, this is not it. The majority of the information is very general and applicable to starting any business. This book really doesn't offer any information about how to develop contacts within the academic community, the application process or how to research scholarships and other forms of financial aid. Basically, it is just a business planning book with a specialized title.0 of 0 people found the following review helpful. Five StarsBy

CustomerGreat book and great tips! I cannot wait to start my business soon.0 of 0 people found the following review helpful. Two StarsBy Barbara K. LeventhalVery basic info, not very helpful.

Thanks to today's busy lifestyles, nearly 4,500 institutions of higher learning, and more than 21 million students, the need for college admissions consulting services continues to grow. The experts at Entrepreneur detail how education enthusiasts and/ or those with a passion for counseling others can take advantage of this home-based business opportunity. Coached by our experts, entrepreneurs learn how to identify their specialty or services from steering high school students towards acceptance to assisting in filing admission and financial applications and other market needs. They also learn business basics such as establishing their company as a legal entity, outfitting a home office, handling the finances, promoting your services and the like. Given contact lists, resource lists, sample documents, and even interviews from practicing entrepreneurs sharing money-saving tips, pitfalls to avoid, and tricks of the trade, entrepreneurs gain all the intel they need to make their business startup and launch a success.
