0 of 0 people found the following review helpful. A good readBy CustomerThis book highlights the basics of an information consultant business. It is a good book of those who want to have an overview of what an information business is all about. Chapter 7 was the most useful to me because it mentioned search engines that that I had not been exposed too. It explained in detail how to go about it and what to expect. Some of the chapters especially those on the hardware need to be up dated. I liked the tips and bright ideas.1 of 1 people found the following review helpful.

Informative. By mary I bought this book some years ago. It was published in 2004 and as a result of this, it is a little out of date in 2014. 0 of 0 people found the following review helpful. Three Stars By bssmj7 Good

Many business people need critical information but don't know where to find it.
