I gave this three stars because if you are looking for inspirational stories on people who have started a business, this is a nice little book. If you want to actually start the business and you want some concrete help, not so much. The stories are lovely and this book can help you wrap your mind around starting a business, but find a better book when you are actually ready to get started.

The ultimate savvy spiritualist's 'business bible', *Starting a Spiritual Business* will put you on the path to living your dream. Presenting case studies, lashings of inspiration and business advice, *Starting a Spiritual Business* will have you grasp the bull by the horns and give you the courage you need to accomplish your true purpose: starting a spiritual business and setting up your own practice. Reiki, Angelic Healing, Mediumship? Or something else? Which healing therapy will you choose, and how will you help people? This book is not only a guide and inspiration, but also offers solid practical advice on starting up, including finding funding, managing your finances and marketing your business.
