Rob Snell : Starting a Yahoo! Business For Dummies before purchasing it in order to gage whether or not it would be worth my time, and all praised Starting a Yahoo! Business For Dummies:

3 of 3 people found the following review helpful. Must have starter guide/book for any Yahoo! Small Business OwnerBy lindsay dominguezI received this book brand new and fast. I highly recommend this book for anyone starting a Yahoo! Small Business (now called Aabaco). This guide walked me step by step from start to finish when I opened my online store with Yahoo! It is a must-have!0 of 0 people found the following review helpful. Five StarsBy D from ArkansasGood base of knowledge.3 of 3 people found the following review helpful. Want to make money? This book is for you!By Michael RI've been with Yahoo Stores for several years now and am responsible for multiple sites. I'm also responsible for multiple other sites that aren't Yahoo Stores. Many lessons learned in this book will easilly translate over to my non Yahoo Store web sites.I'm also a regular attendee to the SES shows. I could have saved a few thousand dollars and bought the book instead. Realistically, the book is certainly a benefit to Yahoo Store owners, but he has a whole section, 4 chapters, that deal with Internet Marketing. For the price, even if you don't own or plan on opening a Yahoo Store, you need this book!I'm not much of a review person. This is the first review I've

ever written. But I received this book and put it to use the day after I bought it. Real world tips and real world examples. Rob doesn't talk to me like I'm some dummy but he doesn't talk over me either. For example, page 258 - "Digging keywords out of your orders." - Another trick to help me find converting keywords. I was already aware of the search results trick and use it often. Here is another method for me to obtain those hard to find, converting keywords. And it was simple!! Why didn't I think of that before?? Rob Snell..... You Rock Dude!

Turn browsers into buyers, boost traffic, and more Build your store from scratch, or make the one you have more profitable His online business has been paying his mortgage for years.
