**Melissa Schilling : Strategic Management of Technological Innovation (Irwin Management)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Strategic Management of Technological Innovation (Irwin Management):

2 of 2 people found the following review helpful. The cases were nice lead-ins for the chapters however it would be nice ...By BeachBabePurchased for a masters program course in Strategic Management of Technology. The course covered the entire book. The cases were nice lead-ins for the chapters however it would be nice if the book were had more relevant examples and profiles. Since this is the 4th edition, some things are updated, but most graphs dated around 2012 or earlier and not much, if any, from 2013 or later. The concepts are still relevant however and it would be a great supplement to more current cases or coursework.0 of 0 people found the following review helpful. It is a good textbook with clear writing and it explains the material ...By MichelleI ordered this for my graduate class. It is a good textbook with clear writing and it explains the material in detail.0 of 0 people found the following review

helpful. Five StarsBy Melissaas described

Strategic Management of Technological Innovation 5e by Melissa Schilling is the first comprehensive and rigorous yet accessible text for the Technology and Innovation Management course. Unlike other books Schilling's approach synthesizes the major research in the field providing students with the knowledge needed to enhance case discussion and analysis. The subject is approached as a strategic process and as such is organized to mirror the strategic management process used in most strategy textbooks progressing from assessing the competitive dynamics of a situation to strategy formulation to strategy implementation. As a brief affordable paperback it is ideal to package with cases. Recommended case sets from the author are available through McGraw-Hill Create or from the Harvard Business School Case Database.

About the AuthorMelissa A. Schilling egrave; professore di Management alla Stern School of Business presso la New York University.
