Yue Jiang, Jianjun Miao, Fan Zhuo : Student Solutions Manual to Accompany Economic Dynamics in Discrete Time (MIT Press) before purchasing it in order to gage whether or not it would be worth my time, and all praised Student Solutions Manual to Accompany Economic Dynamics in Discrete Time (MIT Press):

This manual includes solutions to the odd-numbered exercises in Economic Dynamics in Discrete Time. Some exercises are purely analytical, while others require numerical methods. Computer codes are provided for most problems. Many exercises ask the reader to apply the methods learned in a chapter to solve related problems, but some exercises ask the reader to complete missing steps in the proof of a theorem or in the solution of an example in the book.

About the Author Jianjun Miao is Professor of Economics at Boston University.
