**Jeffrey K. Pinto : Successful Information System Implementation** before purchasing it in order to gage whether or not it would be worth my time, and all praised Successful Information System Implementation:

Pinto and Millet offer practical information on approaching the subject of IS from a managerial, rather than a technical, perspective. The second edition of this work covers such topics as implementation theory, prioritizing projects, implementation success and failure, critical success factors, techniques for planning and scheduling, dealing

with change control pressures, system development life-cycle politics, improving the analysis and design phase, team building and cross-functional cooperation, and the MIS zoo.

About the Author Jeffrey K. Pinto, Ph.D., is the Samuel A. and Elizabeth B. Breene University Endowed Fellow in Management and Professor of Management in the School of Business at Penn State-Erie. Ido Millet is assistant professor of management information systems at Penn State-Erie. He also has 13 years of industrial experience, including systems analysis and project management for large-scale information systems, consulting, and development of PC-based management information systems.
