By Roland Bella Some topics come from heart, some seem like they come from not experience but from other resources. Definitely a good motivational book how much you can earn on the Internet but most of the examples

happened some years earlier. The biggest advantage for me is that I just made a decision I want to learn this type of money making. If the half part is true what is in the book and I can duplicate it within 2-3-5 years, than it is more valuable than the price what I paid for the book. Don't be excited during the reading rather try to stay calm and objective, because you can easily spend a lot of money on training and solutions what's are offered in the book. Rather buy the book, read it at least two times and start to apply in the real world what you learned, and see what is working for you.

By Robert LachWell, why do I rate this book so high ? Maybe the Laptop Millionaire is something very personal to me. I used to be member of corporate family in Poland for 10 years. I have signed 1 million \$ contract in Athens in July 2004, almost exactly at the time, when Mark Anastasi was completely broke in London. 6 years later our roles has changed upside down. Mark was making contracts of the same size, As I did in 2004, There has been a difference. Mark was at the Top of the Stage in London, at CLICKBANK MILLIONAIRE MASTERCLASS and I went broke ? Why ? I am writing about in in my Kindle book to be published soon on . After explaining, why "The Laptop Millionaire: is important to me - personally - Now I am going to the Review of The Laptop Millionaire. I have bought the book on a month ago, but could not to read it until the last week. I have started to read the book, and it swallowed me up to my ears. Book has 237 pages and consists of 12 chapters, containing : 1. E-Books, 2. List building and e-mail Marketing, 3. SEO - Search Engine Optimization, 4. YouTube, 5-Facebook, 6. Twitter, 7.Fiverr, 8. Outsourcing, 9.Local Business Marketing, 10. Membership Sites, 11. Webinars, 12.Online Marketing and some final Thoughts of the Author. Mark Anastasi describes technologic context, of our lives , with the focus on digital/internet revolution we face on our eyes, from the beginning of 90-ties, whereas, the majority of people on the Earth do not understand, how almost all of us can benefit from this technological shift. Mark explains, how he has participated in " the Seminar that Changed My Life" , and describes, how he has started his way towards an online world. and his first Mentor, who has helped him to change his life for good. He also explains, where are the conditions set - to begin our Financial independence. This threshold is set in one sentence : "Financial Independence Begins at 400 Clicks per Day" - and Mark explains, what does it really mean, at the end of Introduction. Then, the 12 chapters follow, jam-packed with testimonials of his and other people students, who are a new generation of -Crisis-Proof people. They have established their- online - presence. They know, what "Personal Branding is all about". Especially now, in the turbulent times of economic crisis it is of extreme importance to the young people generation to have a certainty or hope, that they will not lose their source of incomes. I know how it pains, when you lose your job, in the most desired moment. Therefore, ability to earn online - creating either supplementary income source, or starting a completely new business - is one of the most desired on Earth these days. Mark describes, in the very precise way, all the technicalities of starting online business, and gives life stories, testimonials, of the people, who are real people, and who experienced radical or slow but constant change in their lives. These is some people among the ones interviewed by Mark (and oh boy, Mark has reviewed around 150 of them), who were forced to replace their incomes quickly, or who wanted to improve their financial skills and the level of incomes of their own/ or their own families. Mark also explains, how to make money on CLICKBANK, a platform founded in 1998, which has paid so far, more than 2,3 billion US dollars, in the commissions paid to its affiliates. I have also made my first sale on CLICKBANK last year, and I know that this is real. I still wonder, why the CLICKBANK has not set up their presence in Poland, in the country, which can be a goldmine for online transactions, but this is other story... I think I will recommend the idea to translate this book into Polish Language, to my friend and boss, prof. Krzysztof Rybicki, the Rector of Academy of Finance and Business in Warsaw, (and a former Vice-Governor of Polish National Bank) - in order to train students of Vistula Group of Universities in finding practical ways to achieve Financial Freedom. Education systems in USA and Europe, produce rather " consumers" and the creators of freedom, and independence. as Robert Kiyosaki describes in his famous "Rich Dad, Poor Dad" book. Mark Anastasi breaks the veil of silence and I really like the fact that the book became The New York Times Bestseller", since there is a reason for this. Soon , almost all of us, will need, to have the advice - what to do with our spare time. I wish - to every reader of "The Laptop Millionaire" - to read the book from page No 1 to page 237, and to read it again and again, until they will be able to copy paste methods to earn money online. After Timothy Ferris " 4 Hour Work Week" - this is next BESTSELLER, strengthening ability to survive of all of us, in the turbulent times of Global Financial Crisis. The crisis will not go home soon. It even can send us to the zone of unemployment. Then, being able to generate 5000, 10 000 \$ / month, or even 100 000 \$ a month, will be critical for survival of the family. So in one sentence - The Laptop Millionaire is a "MUST READ ITEM." Go for it. You will not regret. :-)

Yours sincerely Robert Lach

By Joanna D. This book goes over how to set up online businesses using social media, webinars and other click-advertising methods to generate a stream of income, while not investing much at all of your own capital. Stay-at-home moms who need income, those with underpaying jobs, or no jobs are going to be very interested in what Mark Anastasi has to say. However, the style of the book (a lot of hype about how the author and others live the "good life" --luxurious vacations, thousands of dollars a month pouring into checking accounts, getting up late, not commuting to an office, living offshore in a less-expensive tropical location) sound more like an infomercial and indeed, the author is suggesting you take one of his seminars. The good news about this book is

that the information is gathered conveniently into one place. The bad news is that you probably can get this yourself if you study online enterprise, and meanwhile you have to wade through the fluff and sales pitch. I will say, that doing all this research yourself online is time-consuming and you do get a number of ideas here (ebooks, informational websites that pay per click, webinars, referral sites) as well as a concise list of opportunities for earning a living with a web-based business. I am giving the book three stars because a lot of what is in here is true, at least for the current year 2012, and if you are wanting to branch out on your own, start a business with a minimal startup cost, this could be very helpful. I just didn't enjoy the writing; too much anecdotal come-on, hype and cheerleading, too little meat and potatoes of information. You'd need more than this book if you are serious.
