By Lisa Niles I'm always looking for books that I believe can help me think differently about this new world of work. The Leadership Mindswitch does just that. Benton and Wright-Ford present a clear, compelling case for the need to approach leadership from a new place - one that is collaborative, diverse and responsive. What I love most about their book is that the premise applies to both business and 'everyday life'. Their principles are solid for anyone looking to be a better leader in any situation. I believe that this book is a must-read, and I'm buying it for all of my clients to read! 0 of 0 people found the following review helpful. The opportunity to hear from two successful women in business and leadership who complement each other in their approach and experience is a unique thing indeed. This book flows freely and will prove rewarding for those who take away some of the observations and lessons. Thoroughly enjoyable! 0 of 0 people found the following review helpful.
