**From Palgrave Macmillan : The New Political Economy of Pharmaceuticals: Production, Innovation and TRIPS in the Global South (International Political Economy Series)** before purchasing it in order to gage whether or not it would be worth my time, and all praised The New Political Economy of Pharmaceuticals: Production,

Innovation and TRIPS in the Global South (International Political Economy Series):

Some two decades will shortly have passed since the WTO's Trade Related Aspects of Intellectual Property Rights agreement came into force in 1995. This volume is the first cross-country analysis of how TRIPS has affected the capacity of 11 major low or medium income countries to produce generic drugs.
