Glenn Morgan, John Campbell, Colin Crouch, Ove Kai Pedersen, Richard Whitley : The Oxford Handbook of Comparative Institutional Analysis (Oxford Handbooks) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Oxford Handbook of Comparative Institutional Analysis (Oxford Handbooks):

It is increasingly accepted that 'institutions matter' for economic organization and outcomes. The last decade has seen

significant expansion in research examining how institutional contexts affect the nature and behaviour of firms, the operation of markets, and economic outcomes. Yet 'institutions' conceal a multitude of issues and perspectives. Much of this research has been comparative, and followed different models such as 'varieties of capitalism', 'national business systems', and 'social systems of production'. This Handbook explores these issues, perspectives, and models, with the leading scholars in the area contributing chapters to provide a central reference point for academics, scholars, and students.

About the Author Glenn Morgan is Professor of International Management, Cardiff Business School, Cardiff University. John Campbell is Class of 1925 Professor, Department of Sociology, at Dartmouth College. Colin Crouch is a professor at the Warwick Business School, University of Warwick. Ove Kaj Pedersen is a professor at the International Centre for Business and Politics, Copenhagen Business School. Richard Whitley is professor at the Manchester Business School, University of Manchester.
