Kenneth B. Kahn : The PDMA Handbook of New Product Development before purchasing it in order to gage whether or not it would be worth my time, and all praised The PDMA Handbook of New Product Development:

1 of 1 people found the following review helpful. Helpful to get up to speed on product development and launchBy LSAnderson40I have been a product manager a few times in my career and enjoyed the many faceted and challenging role it is. This book helped me learn about product development as well as the process for launching product. I am now responsible for product launch at my company and have introduced new product launch processes for other

companies as well. 0 of 0 people found the following review helpful. Everyday reference
By Luis S. Awesome my everyday reference book
0 of 0 people found the following review helpful. Five Stars
By mike st. john Book was in great condition

New Product Development is one of the most important challenges facing organizations today. The Product Development and Management Association (PDMA) Handbook of New Product Development 3rd Edition provides an exceptional review of cutting edge topics for both new and experienced product development leaders. It offers a comprehensive and updated guide to the practices, processes and tools critical to achieving and sustaining new product/service development success in today's world, delivering valuable information about the fundamentals as well as emerging practices such as venturing, virtual product development and the use of social media in NPD. As the premier global advocate for professionals and organizations working in the fields of new product/service development, PDMA has assembled in the Handbook unique content on the critical aspects of product development success including its 2012 Best Practices Research, Lessons Learned from its Outstanding Corporate Innovator Award Winners and keys to success from organizations with proven innovation track records. The 3rd Edition is an essential reference for anyone with responsibility for product development activities, from novices looking for fundamentals to experts seeking insights on emerging concepts, and is relevant for all functions and all product/service industries.

From the Publisher Product development professionals at the cutting edge of knowledge in their respective areas of new product expertise present a complete picture of the information needed for effective product development. Describes all aspects of the topic from the creation of the concept through development and design to the final production, marketing, and service. Discusses fundamental concepts including identifying customer needs, using multifunctional teams, and having an appropriate development procedure as well as important issues emerging in the field such as process ownership, pipeline management, metrics, and product architecture. From the Back Cover The completely revised and updated "bible" of new product development The PDMA Handbook of New Product Development, Third Edition provides a comprehensive, updated picture of what managers need to know today for effective new product development. Its concise, map-like detail acts as a compass for managers, offering practical information pertaining to every stage of the product development process—from idea generation to launch to the end of the product life cycle. This Third Edition provides fundamentals for novices as well as guidance for experts on topics outside their own area of expertise and includes the latest information on advanced and emerging concepts, such as virtual product development, globalization, social networking, and service development. About the Author PDMA is a global nonprofit organization seeking to accelerate the contribution that innovation makes to the economic and professional growth of people, businesses, and societies around the world. PDMA delivers improved organizational performance and individual career growth by offering the latest academically rigorous innovation research, resources for product development and management knowledge, and opportunities for collaboration among an international network of innovators. Kenneth B. Kahn, PhD, is Professor of Marketing and Director of the da Vinci Center for Innovation at Virginia Commonwealth University in Richmond, Virginia. His teaching and research interests address product development, product management, and demand forecasting of current and new products. He has consulted with and conducted training sessions for numerous companies, and has been a PDMA member since 1989. Sally Evans Kay has been active in PDMA since 1988 both nationally and at the chapter level and currently chairs The Outstanding Corporate Innovator Award Committee. Rebecca J. Slotegraaf, PhD, is Associate Professor of Marketing and Whirlpool Faculty Fellow at the Kelley School of Business, Indiana University. She serves on the editorial boards of the Journal of Marketing, Journal of Product Innovation Management, and others. Steve Uban, PE, NPDP, has been a practitioner in research and new product development for almost 40 years. Mr. Uban is a Professional Engineer and Certified New Product Development Professional and is on the board of the PDMA Foundation.
