**From Palgrave Macmillan : The Political Economy of State-owned Enterprises in China and India (International Political Economy Series)** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Political Economy of State-owned Enterprises in China and India (International Political

Economy Series):

Focused on unique features of economic development, this edited volume examines the nature and structure of corporate governance of several key state-owned enterprises in China and public sector units in India in five strategic sectors: oil and natural gas, steel, coal, electricity generation, and banking industries.

About the Author Xu Yi-chong is Research Professor of School of Government and International Relations at Griffith University, Australia. Xu is the author of *Powering China* (2002), *Electricity Reform in China, India and Russia* (2004), and *The Politics of Nuclear Energy in China* (2010). With Patrick Weller, Xu co-authored *The Governance of World Trade* (2004) and *Inside the World Bank* (2009). Xu also co-edited *The Politics of Sovereign Wealth Funds* (2010, with Gawdat Bahgat) and edited *Nuclear Energy Development in Asia* (2011).
